Open to remote work

WAI YAN KO KO

Full Stack Developer

Full Stack Developer with 2 years of experience building and deploying production web apps with React, Next.js, NestJS/Express and Laravel. Comfortable in team environments, having worked alongside senior engineers on backend APIs and role-based React dashboards, and equally able to deliver end-to-end systems independently. Focused on delivery, e-commerce and logistics platforms with real-time features and Telegram bot automation. Live projects include nowfashioncollection.com. Open to remote work.

WORK EXPERIENCE

Junior Full Stack Developer (Part-time Remote)
Shwe Monywa Net - Aug 2024 - Feb 2025

- Worked with a small team to develop a WiFi management system in Laravel, with supporter roles, payment handling and admin panels.

Backend Developer (Team Project, Remote)
My Together - May 2026 - Jul 2026

- Joined a team with 2 senior engineers as the backend developer on a food delivery platform. Built NestJS REST APIs for authentication, restaurant/menu management and order processing.
- Built the React frontend and an admin dashboard with role-based access for 3 user roles: admin, customer and shop.
- Implemented real-time order status updates and customer-driver chat using Socket.IO.
- Improved restaurant and menu search speed with database indexing.

Freelance Full Stack Developer (Remote)
2025 - 2026

- Htoo Delivery Service (Aug - Sep, 2026): Solely designed and built a delivery management system with 2-way Telegram automation, a mobile PWA for driver tracking, digital voucher generation and an admin dashboard.
- Now Fashion (Mar - Apr, 2026): Solely built and deployed an e-commerce management system with 2-way Telegram automation, dynamic order tracking and admin features. Live: nowfashioncollection.com
- Logistics Management System (Dec, 2025): Built inventory tracking, shipment records and reporting features.
